

Easi-Serv's safety bollards are an effective alternative to immovable steel posts. The spring loaded post has been designed to protect building corners whilst at the same time minimising damage to vehicles when accidentally struck.

## Features

- Gives when hit by vehicles and then springs back to upright position.
- Manufactured from impact resistant polyethylene, which does not damage vehicles.
- Easy and cost effective to install.
- Weather resistant, it will not freeze or change colour in sunlight.

## Safety Bollard Specifications

- Post length: 1320 mm
- Post diameter 110 mm
- Base plate: 153 mm x 255 mm
- Fixing method: By way of 4, 102 mm x 13 mm wedges.
- Standard colour: Bright yellow with two reflective bands.
- Number of parts: 1 post and base plate assembly, 1 cap, 4 stainless steel wedge anchors, 4 stainless steel washers  
1 stanchion.
